VAR0124 Buggy Whip® LED Whip w/ Lighted Top Option

Continuously pioneering innovation in materials and technology, Buggy Whip has earned its reputation as a recognized global brand, surpassing all others in its widespread use across various environments and situations. The Buggy Whip LED Whip with Lighted Top Option offers multiple solutions in one, ultimately saving you time and money.

LED Top Lights, Flags, and Mounts sold separately.

****Threaded Base LED Whips require QM2 and Quick Release Base LED Whips require QRL03, unless you already possess a Buggy Whip Base Mount****

Features:

- ✓ Billet aluminum top — 6061 Aircraft grade
- ✓ Superior Visibility — Up to 17,600 lumens of light
- ✓ 100% Exclusive Tubing — Engineered for the harshest environments
- ✓ All Weather Resistant — Designed to withstand the challenges of your unique climate conditions
- ✓ Flame Retardant — With superior impact & abrasion resistance per UL VW-1
- ✓ Chemical and fluid resistant—No breakdown of wall integrity, tubing will not absorb or soften per ASTM D 2671
- ✓ UV Protected — for 10+ years per Weather-Ometer Resistance ISO 4891-2, ISO 489202
- ✓ Industrial strength — Military and Aerospace grade approved Meets AMS-DTL-23053 and NASA SP-R-0022A
- ✓ Durable Design — Withstands speeds more than 150 mph

QM2 Quick Mount QM2 for Buggy Whip® Threaded LED Whips

Vehicle mounted quick release adapter for threaded LED Buggy Whip. The QM2 mount allows quick install or removal of your threaded LED whip with simply threading together by hand. The matched stainless-steel surfaces, when clean, effectively lock together ensuring your whip stays in place.

- ✓ 100% 316 Stainless Steel Marine Grade with increased resistance to corrosion and rusting, especially in more saline or chloride-exposed environments
- ✓ All weather resistant Designed to withstand the challenges of your unique climate conditions
- ✓ Meets certifications DFARS - AMA - 5648
- ✓ Easy Install QM2 adapter grounds to vehicle chassis while the red power lead attaches to a 12V source

QRL03 Quick Release Adapter QRL03 for Buggy Whip® Quick Release LED Whips

Vehicle mounted quick release base adapter for LED Buggy Whip with quick release base. The QRL03 mount allows quick install or removal of your quick release LED whip with a simple pull of a locking hitch pin giving you the confidence that your whip will stay in place.

- ✓ 100% 316 Stainless Steel Marine Grade with increased resistance to corrosion and rusting, especially in more saline or chloride-exposed environments
- ✓ All weather resistant Designed to withstand the challenges of your unique climate conditions
- ✓ Meets certifications DFARS - AMA – 5648
- ✓ Easy Install QRL03 adapter grounds to vehicle chassis while the red power lead attaches to a 12V source
