## Mobile Stretcher

winner of the  
**EMSWORLD**  
Innovation Award

### The Patient Handling Solution for Frontline Responders

If you move patients, you need REX. Committing multiple resources to move a single patient is a practice of the past. REX provides simple, safe and rapid movement of patients while freeing up medical resources for patient care. REX - A true force multiplier.

Adjusts for Supine and Fowler's Positions.

### Optimizing Resources In All Incident Types

Medical Surge

HazMat Operations

Active Shooter

Mass Casualty

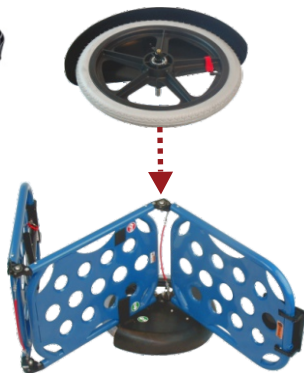

### Designed With Patient Movement In Mind

Portable, versatile and easy-to-use, the Rex mobile stretcher is the "Golden Hour" solution that gets patients to definitive care quickly and safely.

#### Ready to Roll in Under 30 Seconds

Compact Design  
Stows Easily and  
Deploys Rapidly.

Effortless Patient Movement  
Over Virtually Any Terrain.

**Nothing Moves Like a REX**

Multi-functional design converts from a mobile stretcher to a treatment cot in seconds.
